

Dedicated to cutting edge solutions for cell-based research, OLS develops, produces and distributes instruments for cell culture, stem cell expansion and differentiation, cell counting and cell-based assays. Focusing on innovations, our mission is to promote research in Life Sciences with smart, reliable and user-friendly technologies.

Our sustained success is based on motivated employees in an innovative environment. Grab your chance now to join us on our journey into a successful future.

We are expanding our sales team in Germany and Austria, apply today:

Cell Biologist as a Scientific Sales Manager Cell Assays, Germany South and Austria (f/m/d)

Expect a high degree of flexibility, self-responsibility and independency.

As a member of the Sales Team your main responsibilities include:

- Achieve annual sales goals within the defined territory
- Develop, maintain and enhance customer relationships in accordance with approved sales and marketing plans
- Identification of new clients and business opportunities
- Execution of presentations and product demonstrations at the customers site
- Manage all required customer relationships at any hierarchical level
- These positions are home office based

Your Qualification:

- A degree (at least MSc, PhD preferred) in Life Science, Biology or similar with a practical focus on cell biology
- Experience in cell based research using a variety of assays such as proliferation, apoptosis, toxicity or flow cytometry will be expected
- Relevant working experience in the lab, including hands-on cell culture experience
- Express yourself fluent in German and English with strong written skills
- Customer-focused and strong communication skills
- Solution-oriented working method in a structured and pragmatic manner
- Willing to travel overnight as required
- Ideally, you have previous experience in product support and/or sales

What we offer:

As a rapidly growing company, we offer you a pleasant international working atmosphere in a dynamic team, attractive compensation and benefits as well as many opportunities to take on responsibility and to develop professionally. A friendly environment, flat hierarchies with short decision-making processes are the basis of our cooperate culture at OLS.
