

At OLS, we dedicate ourselves to innovative solutions for cell-based research: We develop, produce and sell laboratory equipment for research laboratories in the field of cell culture, cell analysis, flow cytometry, stem cell expansion and differentiation and cell counting. It is our mission to advance research in the field of life science with smart, reliable and user-friendly technologies.

*Our sustainable success is based on motivated employees in an innovative work environment. Seize the opportunity to join us on our way to the future.*

To strengthen our team in Bremen, we are looking to the earliest possible date a

### **Full Stack .Net Web Developer (m/w/d)**

#### **Responsibilities:**

- Design and develop software for innovative laboratory instruments and/or laboratory use
- Making sure that our customers can focus on the biology and love our instruments, due to simple and joyful interfaces and data visualization
- Design and implement modern and enjoyable User Interfaces
- Bringing exciting new prototypes to life and working in close collaboration with hardware engineers and cell biologists
- Work independently on solutions for specified requirements and be responsible yourself for complying with time and quality specifications
- Monitor the latest technical developments in your field and make proposals for improvement
- Work with dedicated, interdisciplinary project teams across disciplines

#### **Your Qualification:**

- (Full Stack) Experience in .Net Web Development
  - Backend technologies (.Net Core, Databases)
  - Web technologies (HTML, CSS, JavaScript/TypeScript, Blazor)
- Optional experience in WPF/XAML
- Optional first experience with hardware-related programming
- You have a good eye for design and enjoy working with modern web applications
- Structured and meticulous working style, willing to learn new things
- Good communication skills in English

**What you can expect from us:**

A challenging and varied job. As a rapidly growing company, we offer you a pleasant international working atmosphere in a young team, as well as many opportunities to take on responsibility and develop yourself further. A friendly, open environment, flat hierarchies and short decision-making paths are part of our corporate culture.

We also offer our employees: Free beverages, freely available employee parking spaces, a tram stop just a few minutes' walk from the company building, possibility to work remotely, fresh fruits.

Convinced? Please send us your application with your earliest possible starting date and your salary expectations along with your CV and all relevant documents by email.
