

Focusing on people and innovations, OLS OMNI Life Science accelerates research in life sciences and biotechnology with smart, reliable, and user-friendly technologies. Our products are found in laboratories of both the public and private sector, as well as laboratories of the pharmaceutical and biotechnology industries. The broad portfolio includes instruments, software, media, reagents, consumables, as well as services and consultation for cell counting, cell culture, imaging, flow cytometry, and cell analysis. This enables us to accompany researchers during the entire research process, from conception to conclusion.

Our sustainable success is based on motivated employees in an innovative work environment. Seize the opportunity to join us on our way to the future.

To strengthen our team in Bremen, we are looking for a

Senior .NET Software Architect / Full Stack (m/w/d) (70-100%)

at the earliest possible date

Responsibilities

- Design and develop software for innovative laboratory instruments and solutions with modern and enjoyable user interfaces
- Make sure that our customers can focus on the biology and love our instruments
- Bring exciting new prototypes to life and working in close collaboration with hardware engineers and cell biologists
- Work independently on solutions for specified requirements and be responsible for yourself to comply with time and quality specifications
- Monitor the latest technical developments in your field and make proposals for improvement
- Show leadership capabilities to various internal and external stakeholders

Your Qualifications

- (Full Stack) Experience in .Net Development
 - Backend technologies (.Net Core, Databases)
 - Web technologies (Blazor, HTML, CSS, JavaScript/TypeScript)
 - Sandboxing technologies (Docker, Docker-Compose)
- Experience in WPF/XAML
- Optional experience with Python
- Optional experience with hardware-related programming
- You have a good eye for design and enjoy working with modern web applications
- Structured and meticulous working style, open mindedness and willingness to learn new things
- Good communication skills in English

What you can expect from us

As a rapidly growing biotech company, we offer you a pleasant, international working atmosphere in an engaged team, as well as many opportunities to take on responsibility and develop yourself further.

Besides flexible working hours, a friendly, open environment, flat hierarchies and short decision-making paths are part of our corporate culture.

We also offer our employees: Free beverages, freely available employee parking spaces, a tram stop just a few minutes' walk from the company building, fresh fruits, company pension plan and health insurance.

Convinced? Please send us your application with your earliest possible starting date and your salary expectations along with your CV and all relevant documents by email.
